

|  | 20, including zero | pictorial representations, and mentally, including: $T U+U, T U+T, T U+T U$ and $\mathrm{U}+\mathrm{U}+\mathrm{U}$ <br> - show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot | $\begin{aligned} & \text { HTU+U, HTU+T and } \\ & \text { HTU+H } \end{aligned}$ |  | large numbers | mixed operations and large numbers |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Written +/- |  |  | - add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction | - add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate | - add and subtract whole numbers with more than 4 digits, including using formal written methods |  |
| Problems +/- | - solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as 7 $=\square-9$. | - solve problems with addition and subtraction, using concrete, pictorial and abstract representations - recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems. | - estimate the answer to a calculation and use inverse operations to check answers - solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction | -estimate and use inverse operations to check answers to a calculation <br> - solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why | - use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy <br> $\cdot$ solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why |  |
| Number Facts $\mathbf{x} / \div$ |  | $\bullet$ recall and use multiplication and division facts for the 2,5 and 10 multiplication tables, including recognising odd and even numbers | - recall and use multiplication and division facts for the 3,4 and 8 multiplication tables | - recall multiplication and division facts for multiplication tables up to $12 \times 12$ | - identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers <br> - know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers <br> - establish whether a number up to 100 is prime and recall prime numbers up to 19 | - identify common factors, common multiples and prime numbers |
| Mental $\mathrm{x} / \div$ |  | - calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication ( $\times$ ), division $(\div)$ and equals $(=)$ signs - show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot | -write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental methods | - use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1 ; dividing by 1 ; multiplying together three numbers - recognise and use factor pairs and commutativity in mental calculations | - multiply and divide numbers mentally drawing upon known facts - multiply and divide whole numbers and those involving decimals by 10 , 100 and 1000 | - perform mental calculations, including with mixed operations and large numbers |
| Written $\mathrm{x} /$ - |  |  | - Progress to formal written methods calculations as above | - multiply two-digit and three-digit numbers by a one-digit number using formal written layout | - multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including | -multiply multi-digit numbers up to 4 digits by a two-digit whole number |

|  |  |  |  |  | long multiplication for twodigit numbers <br> - divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context | using the formal written method of long multiplication <br> - divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context - divide numbers up to 4 digits by a two-digit number using the formal written method of short division where appropriate, interpreting remainders according to context |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Problems $\mathbf{x} / \div$ | - solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher. | - solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts | - solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which n objects are connected to m objects. | -solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects | -solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes - solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign - solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates | - use their knowledge of the order of operations to carry out calculations involving the four operations <br> -solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why <br> - solve problems involving addition, subtraction, multiplication and division - use estimation to check answers to calculations and determine, in the context of a problem, an appropriate degree of accuracy |
| Recognising Fractions | - recognise, find and name a half as one of two equal parts of an object, shape or quantity <br> - recognise, find and name a quarter as one of four equal parts of an object, shape or quantity. | - recognise, find, name and write fractions $1 / 3,1 / 4,2 / 4$ and $3 / 4$ of a length, shape, set of objects or quantity | - count up and down in tenths; <br> - recognise that tenths arise from dividing an object into 10 equal parts and in dividing one-digit numbers or quantities by 10 | - count up and down in hundredths; <br> - recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten. | - recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements >1 as a mixed number |  |
| Comparing Fractions |  |  | - compare and order unit fractions, and fractions with the same denominators - recognise and show, using diagrams, equivalent fractions with small denominators | - recognise and show, using diagrams, families of common equivalent fractions | - compare and order fractions whose denominators are all multiples of the same number <br> - identify, name and write equivalent fractions of a given fraction, represented visually, including tenths | - use common factors to simplify fractions <br> - use common multiples to express fractions in the same denomination <br> - compare and order fractions, including fractions $>1$ |

|  |  |  |  | and hundredths |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Finding Fractions of Quantities |  | - recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators - recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators | - solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including nonunit fractions where the answer is a whole number |  |  |
| Fraction Calculations | - write simple fractions for example, $1 / 2$ of $6=3$ and recognise the equivalence of $2 / 4$ and $1 / 2$. | - add and subtract fractions with the same denominator within one whole [for example, $5 / 7+1 / 7=6 / 7$ ] | - add and subtract fractions with the same denominator | - add and subtract fractions with the same denominator and denominators that are multiples of the same number <br> - multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams | - add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions <br> - multiply simple pairs of proper fractions, writing the answer in its simplest form <br> - divide proper fractions by whole numbers |
| Decimals as Fractional Amounts |  |  | - recognise and write decimal equivalents of any number of tenths or hundredths <br> - recognise and write decimal equivalents to $1 / 4,1 / 2$ and $3 / 4$ <br> - find the effect of dividing a one- or two-digit number by 10 and 100 , identifying the value of the digits in the answer as ones, tenths and hundredths | - read and write decimal numbers as fractions | - associate a fraction with division and calculate decimal fraction equivalents [for example, 0.375] for a simple fraction <br> -identify the value of each digit in numbers given to three decimal places |
| Ordering Decimals |  |  | - round decimals with one decimal place to the nearest whole number <br> - compare numbers with the same number of decimal places up to two decimal places | - recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents - round decimals with two decimal places to the nearest whole number and to one decimal place <br> - read, write, order and compare numbers with up to three decimal places |  |
| Calculating with Decimals |  |  |  |  | $\cdot$ multiply and divide numbers by 10,100 and 1000 giving answers up to three decimal places -multiply one-digit number with up to two decimal places by whole numbers -use written division methods in cases where the answer has up to two |

|  |  |  |  |  |  | decimal places |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Percentages |  |  |  |  | - recognise the per cent symbol (\%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100 , and as a decimal | - solve problems involving the calculation of percentages [for example, of measures, and such as $15 \%$ of 360] and the use of percentages for comparison |
| Fraction Problems |  |  | - solve problems using all fraction knowledge | - solve simple measure and money problems involving fractions and decimals to two decimal places | - solve problems involving number up to three decimal places <br> - solve problems which require knowing percentage and decimal equivalents of $1 / 2,1 / 4,1 / 5,2 / 5,4 / 5$ and those fractions with a denominator of a multiple of 10 or 25 | - solve problems which require answers to be rounded to specified degrees of accuracy <br> - recall and use equivalences between simple fractions, decimals and percentages, including in different contexts. |
| Ratio \& Proportion |  |  |  |  |  | - solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts <br> - solve problems involving similar shapes where the scale factor is known or can be found <br> - solve problems involving unequal sharing and grouping using knowledge of fractions and multiples. |
| Algebra |  |  |  |  |  | -use simple formulae <br> -generate and describe linear number sequences <br> - express missing number problems algebraically <br> - find pairs of numbers that satisfy an equation with two unknowns <br> - enumerate possibilities of combinations of two variables. |
| Measures | -compare, describe and solve practical problems for: length/height, weight/mass, capacity/volume \& time -measure and begin to record length/height, weight/mass, capacity / volume \& time | - choose and use appropriate standard units to estimate and measure length/height (m/cm); mass (kg/g); temperature $\left({ }^{\circ} \mathrm{C}\right)$; capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels - compare and order lengths, | - measure, compare, add and subtract: lengths ( $\mathrm{m} / \mathrm{cm} / \mathrm{mm}$ ); mass ( $\mathrm{kg} / \mathrm{g}$ ); volume/capacity ( $\mathrm{l} / \mathrm{ml}$ ) | - Convert between different units of measure estimate, compare and calculate different measures, including money in pounds and pence | - convert between different units of metric measure - understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints - estimate volume and capacity | - solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate - use, read, write and convert between standard units, converting |

|  |  | mass, volume/capacity and record the results using >, < and $=$ |  |  |  | measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to three decimal places convert between miles and kilometres |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Mensuration |  |  | - measure the perimeter of simple 2-D shapes | -measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres find the area of rectilinear shapes by counting squares | -measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres - calculate and compare the area of rectangles (including squares), and including using standard units, square centimetres ( $\mathrm{cm}^{2}$ ) and square metres $\left(\mathrm{m}^{2}\right)$ and estimate the area of irregular shapes | - recognise that shapes with the same areas can have different perimeters and vice versa <br> - recognise when it is possible to use formulae for area and volume of shapes - calculate the area of parallelograms and triangles - calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm3) and cubic metres (m3), and extending to other units. |
| Money | - recognise and know the value of different denominations of coins and notes | - recognise and use symbols for pounds $(£)$ and pence (p); combine amounts to make a particular value <br> - find different combinations of coins that equal the same amounts of money <br> - solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change | - add and subtract amounts of money to give change, using both $£$ and p in practical contexts |  | -use all four operations to solve problems involving measure [for example, length, mass, volume, money] using decimal notation, including scaling |  |
| Time | - sequence events in chronological order using language recognise and use language relating to dates, including days of the week, weeks, months and years - tell the time to the hour and half past the hour and draw the hands on a clock face to show these times | - compare and sequence intervals of time <br> - tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times - know the number of minutes in an hour and the number of hours in a day | $\bullet$ tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24hour clocks <br> - estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes and hours; use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight <br> - know the number of seconds in a minute and the number of days in each month, year and leap year | - Convert between different units of measure (e.g. Hours to minutes) <br> - read, write and convert time between analogue and digital 12 - and 24 -hour clocks <br> - solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days | - solve problems involving converting between units of time |  |

|  |  |  | compare durations of events |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Shape Vocabulary | - recognise and name common 2-D shapes (e.g. Square, circle, triangle) - recognise and name common 3-D shapes (e.g. Cubes, cuboids, pyramids \& spheres) | (vertices, edges, faces, symmetry) | -identify horizontal and vertical lines and pairs of perpendicular and parallel lines |  |  | - illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius |
| Properties of 2D Shape |  | - identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line. <br> - compare and sort common 2-D and 3-D shapes and everyday objects. | -draw 2-D shapes | - compare and classify geometric shapes, including quadrilaterals and triangles, based on properties and sizes <br> - identify lines of symmetry in 2-D shapes presented in different orientations <br> -complete a simple symmetric figure with respect to a specific line of symmetry. | - use the properties of rectangles to deduce related facts and find missing lengths and angles - distinguish between regular and irregular polygons based on reasoning about equal sides and angles. | -draw 2-D shapes using given dimensions and angles compare and classify geometric shapes based on their properties and sizes |
| Properties of 3D Shape |  | - identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces - identify 2-D shapes on the surface of 3-D shapes, compare and sort common 2-D and 3-D shapes and everyday objects | -make 3-D shapes using modelling materials recognise 3-D shapes in different orientations and describe them |  | - identify 3-D shapes, including cubes and other cuboids, from 2-D representations | - recognise, describe and build simple 3-D shapes, including making nets <br> - find unknown angles in any triangles, quadrilaterals, and regular polygons |
| Angle |  |  | - recognise angles as a property of shape or a description of a turn - identify right angles, recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn <br> - identify whether angles are greater or less than right angle | - identify acute and obtuse angles and compare and order angles up to two right angles by size | - know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles <br> -draw given angles, and measure them in degrees ( ${ }^{\circ}$ ) - identify angles at a point and one whole turn (total $360^{\circ}$ ); at a point on a straight line and $1 / 2$ a turn (total $180^{\circ}$ ) -identify other multiples of $90^{\circ}$ | - recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles |
| Position \& Direction | -describe position, direction and movement, including whole, half, quarter and three-quarter turns | - order and arrange combinations of mathematical objects in patterns and sequences. - use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and $3 / 4$ turns |  | - describe positions on a 2-D grid as coordinates in the first quadrant <br> - describe movements between positions as translations of a given unit to the left/right and up/down <br> - plot specified points and draw sides to complete a given polygon | - identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed | -describe positions on the full coordinate grid (all four quadrants) <br> -draw and translate simple shapes on the coordinate plane, and reflect them in the axes. |

| Interpreting Data | - interpret and construct simple pictograms, tally charts, block diagrams and simple tables | - interpret and present data using bar charts, pictograms and tables | - interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs | - complete, read and <br> interpret information in tables, including timetables | - interpret and construct pie charts and line graphs calculate and interpret the mean as an average |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Extract Info from Data | - ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity <br> - ask and answer questions about totalling and comparing categorical data | - solve one-step and twostep questions [for example, 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables | - solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs | - solve comparison, sum and difference problems using information presented in a line graph | - use pie charts and line graphs to solve problems |
